**The customers of the Corporation AFFECTED are:  
Kempner WSC, West Bell WSC and portions of Dog Ridge WSC**

Central Texas Water Supply Corporation is initiating **Stage 2 Moderate to Severe Conditions - Water Rationing** due to raw water pump failure at Lakecliff Water Treatment Plant. Begin water reductions to customers, require wholesale customers to implement alternative water supply sources and consideration of limiting nonessential water usage. Customers are asked to restrict/ration water usage.

Stage 2 may be rescinded when conditions improve.

Let us know if you have any questions.

Thank you,  
Lee Kelley  
General Manager
